

MSSP Veteran, Sebastian Fazzino, to join United Computer's Executive Leadership as CIO

Cherry Hill, NJ, December 1, 2010 – United Computer, the leading IT, Security, and Compliance Management solutions provider for the financial and government vertical markets today announced the appointment of Sebastian Fazzino as the Chief Information Officer to oversee all product research and development efforts as well as the execution of new offerings and solution enhancements.

Mr. Fazzino, was formerly SVP of Security and Compliance at Perimeter E-Security, the market leader of enterprise-class information security services providing Intrusion Defense solutions, Hosted Messaging solutions, and Vulnerability Management solutions. Perimeter services 5,000 companies in the United States, including over 1,500 financial institutions. Mr. Fazzino joined Perimeter in 2000 and contributed greatly in their rapid growth and expansion to a 60-million dollar organization. He provided senior management leadership roles in both operations and sales management. "We are thrilled to welcome Sebastian to our Executive Management team", said Kevin Runyon, President of United Computer. "I have known Sebastian for many years, his industry knowledge and leadership is exactly what United Computer needs as we continue to enhance our suite of IT, Security, and Compliance services for our vertical markets."

"I am excited about the opportunity to join the Executive Leadership Team at United Computer. I look forward to leveraging my experience and expertise driving United Computer forward in servicing the IT, Security, and Compliance needs of financial intuitions and for local government." said Sebastian Fazzino. "I have worked with Kevin Runyon and United Computer for many years, and I am proud to now be on the team." Mr. Fazzino holds a BS of IT, from CCSU and holds several leading industry certifications: CISSP, CISM, CGEIT. He is an active member of ISSA, ISACA, InfraGard, and the Association of Financial Technology
