

United Computer Selects Philadelphia Technology Park™

Cherry Hill, NJ, December 22, 2011 – United Computer, the leading IT, Security, and Compliance Management solutions provider for local government and community financial institutions today has announced that they are moving the technology behind their UnitedCare Services to the secure data center at Philadelphia Technology Park.

"After careful consideration and months of research we are excited to have selected Philadelphia Technology Park as our secure colocation partner." said Sebastian Fazzino, CIO United Computer. Philadelphia Technology Park operates the Mid-Atlantic Region's premier carrier-neutral data center and is the only purpose built, single use data center infrastructure facility of its kind in Philadelphia. "We have grown significantly over the past few years with an increased focus on providing IT security and IT compliance services. Hosting our UnitedCare Services at Philadelphia Technology Park is a critical foundational step in our continuing effort to provide the required level of security, compliance and service availability our clients demand" said Mr. Fazzino.

"We are excited that United Computer has selected Philadelphia Technology Park as their colocation provider," said Corey Blanton, President of Philadelphia Technology Park. "We are looking forward to providing United Computer with exceptional colocation services which will give them peace of mind regarding their company's mission critical IT infrastructure."

About United Computer Sales & Service, Inc.

At United Computer our mission is to make IT, Security, and Compliance easily available and affordable for Local Government and Community Financial Institutions. Our UnitedCare compliance services are engineered to mitigate security and compliance risk, reduce IT expenditures, and improve operating efficiencies.

Since 1983 United Computer has been in the business of providing 1st class customer service. Our UnitedCare Program offers a complete line of managed services designed to provide affordable and proactive support. Through our UnitedCare service, In addition to supporting over 100 local municipalities, United Computer supports over 100 financial institutions, successfully providing IT and Security services and assisting with numerous FFIEC exams, state regulations and 3rd party audits annually. We take an active role working with the institution to manage the audit process from beginning to end. Our clients greatly benefit from our certified IT, Security and Compliance professionals and our knowledge of what the examiners and auditors are looking for today and what is trending for tomorrow.

About Philadelphia Technology Park™

Philadelphia Technology Park is a state-of-the-art, 25,700 square foot colocation data center that serves to house mission critical data for its customers. The center was designed to meet the high density power, cooling and bandwidth requirements of the Uptime Institute. Located within the Philadelphia Navy Yard, it is the only purpose-built, single-use data center facility of its kind in Southeastern Pennsylvania, South Jersey and Wilmington market. Over \$25 million have been invested into Philadelphia Technology Park.

Philadelphia Technology Park is owned by Enterprise Technology Parks, LLC and is a sister corporation to Baltimore Technology Park, a 30,000 square foot colocation data center located in Baltimore, Maryland. Philadelphia Technology Park utilizes the same experienced team that has made its Baltimore counterpart the premier data center of the greater Baltimore/northern Washington, D.C. area.

Philadelphia Technology Park is located at 4775 League Island Blvd., Philadelphia, PA, 19112. Inquiries can be made directly to Corey Blanton at 215-218-1980 / sales@philadelphiatechnologypark.com. www.philadelphiatechnologypark.com
